STAR-BULLETIN GIVES YOU**TODAY'S NEWS TODAY****MOTORS COMPANY
DENOUNCED AS
CRIMINAL TRUST****Serious Accusations Are Made
By Senator Reed in
the Senate**

WASHINGTON, June 5.—Senator Reed of Missouri in a fiery speech on the floor of the senate yesterday denounced the legislative policy of the Democratic administration and denounced calamity howlers. He bitterly scored the president of the General Motors Company, who charged congress with being responsible for business depression, and called the company a criminal trust. Senator Townsend of Michigan, a Republican, answered and said the country was suffering from too much ill-digested and speculative legislation.

**A MESSAGE TO THIN,
WEAK, SCRAWNY FOLKS****An Easy Way to Gain 10 to 30 lbs. of
Solid, Healthy, Permanent Flesh.**

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the assimilative function of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. The best way to overcome this sinful waste of flesh building elements and to stop the leakage of fats is to use Sargol, the recently discovered regenerative force that is recommended so highly by physicians here and abroad. Take a little Sargol tablet with every meal and notice how quickly your cheeks fill out and rolls of firm, healthy flesh are deposited over your body, covering each bony angle and projecting point.

Caution:—While Sargol has produced remarkable results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken unless you are willing to gain ten pounds or more, for it is a wonderful flesh-builder. **STARCH FOR THE
MUSLIN COLLARS**

There is only one valid objection to the new muslin collars. They are fragile. Like maline, moisture reduces them to shapelessness. Wrinkles are as obvious on them as they are on linen shirtwaists. Fortunately, laundering restores them to their original state of dainty loveliness, if the laundering is of the right sort.

These collars depend for their shape on their stiffness. Sometimes they are stiff enough if they are ironed wet. But usually they need a little starch. Here is a recipe for the right sort of starch to use for these collars of linen and organdy that are the earmark of the new fashions:

Add a piece of paraffin the size of an egg and a piece of white or castile soap the size of a hazelnut to a quart of boiling water. Mix the starch with cold water in a bowl, using whatever proportion of starch to a quart of water the particular brand of starch calls for to make a thin starch. Add the cold mixture to the boiling water and let it boil up two or three times. Then add a little bluing, in liquid form.

**SCHUMAN CARRIAGE CO. HAS
ANOTHER BANNER SALES WEEK****Month of April Is Record-
Breaker at Great Ford
Factory**

Take out your watch. Follow the second hand around the minute cycle. Every time it ticks off twenty-four seconds a new Ford car comes into being.

The month of April was another record-breaker at the Ford factory in Detroit. 30,402 complete cars having been built and shipped during the month, which had twenty-six working days.

A little mental arithmetic shows that this means a daily production of about 1176 cars. It shows that approximately 144 Fords were built each hour. It shows that almost twenty-four seconds elapsed between the time one complete car left the factory doors until another followed it.

Of course these figures are based on an eight-hour working day. The assembling department at the Ford factory works only one shift of eight hours. Other departments of the factory work three shifts of eight hours in order to keep the assembling department going at top speed.

The first seven months of the company's fiscal year have seen the production of more than 145,000 complete Model T's. Every succeeding month since the first of the calendar year has seen the Ford factory hand up a new record.

The Schuman Carriage Company has had another banner week in Ford sales, with the following result: Love's Bakery, three Ford delivery wagons.

**FEELS LIKE
A NEW WOMAN****As Lydia E. Pinkham's Veget-
able Compound Dispelled
Backache, Headaches
and Dizziness.**

Piqua, Ohio.—"I would be very ungrateful if I failed to give Lydia E. Pinkham's Vegetable Compound the praise it deserves, for I have taken it at different times and it always relieved me when other medicines failed, and when I hear a woman complain I always recommend it. Last winter I was attacked with a severe case of organic weakness. I had backache, pains in my hips and over my kidneys, headache, dizziness, lassitude, had no energy, limbs ached and I was always tired. I was hardly able to do my housework. I had taken Lydia E. Pinkham's Vegetable Compound on one other occasion, and it had helped me so I took it again, and it has built me up, until now I feel like a new woman. You have my hearty consent to use my name and testimonial in any way and I hope it will benefit suffering women."—Mrs. ORPHA TURNER, 431 S. Wayne St., Piqua, Ohio.

Women who are suffering from those distressing ills peculiar to their sex should not doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

After chartering enough tonnage to move the surplus grain crop, arriving at tidewater up to the early part of the winter, a report has it that the exporters probably will engage no more sailing vessels. The belief is that the growing locally that the Panama canal will not be open for the accommodation of commercial vessels before January 1, 1914, the official date fixed by the authorities long ago. A general opinion had prevailed that it would open early in July, but one of the local shipping men declares that he has heard from authentic sources that the waterway will not be available until about six months later. Practically all the sailing vessels chartered by the exporters were taken for fall and early winter loading. By the time they have been loaded and out of the way, it is held the canal will be ready for traffic, and it is predicted that the remainder of the cereal crop for export purposes will be forwarded in tramp steamers and regular liners. After this coming season it is claimed that the windjammers will not be a factor in the matter of carrying grain from the Pacific Northwest to Europe.
